

SUNDAY

ULTRA-DWARF BERMUDAGRASS™

Sunday™ Program Overview

Sunday is more than a great “greens” grass; it’s a program dedicated to consistent quality and support for every job.

Limited Production

Unlike most other “greens” grass programs, Sunday Ultra-Dwarf Bermuda originates from just five farms. Bethel Farms and JW Sod in Florida, Modern Turf in South Carolina, Craft Turf Farms in Alabama and Thomas Turfgrass in Texas are the only Licensed Producers of Sunday. The grass is produced using a detailed quality control program, maintained with dedicated equipment, kept separate from all other grasses, and surrounded by a silt fence.

Selective Sales & Installation

Sunday can only be installed by an authorized Distributor/Installer that adheres to strict quality guidelines. All Sunday Distributor/Installers have extensive golf industry experience and proven track records of success with greens construction, installation, and care.

Growers:

JW Sod
Bethel Farms
Craft Turf Farms
Modern Turf Farms
Thomas Turfgrass

Distributor/Installers

Atlas Turf
Southern Turf Hawaii
Quality Turf
GCO (Gulf Coast Organics)

Standardized Post Job Follow Up

A Sunday installation project goes beyond initial grow-in. Both the installer and representatives from Sod Solutions will perform post job inspections at regular intervals to monitor the progress of the green, to provide support, and to troubleshoot any issues that may arise.
